SUBJECT: Contract SP-1914, Accountability of GFP

TO: Contracting Officer

Reference is made to your letter, DPD-0802-59, dated 30 January 1959, which included a request for a listing of the GFP supplied to Lockheed for use in performance of Contract No. SP-1914.

The attached GFP information is being forwarded as agreed during a telephone conversation on 5 August 1959 among [redacted] 25X1A
[redacted] 25X1A Inclosures 1 through 4 represent those items that WRAMA's records indicate were made available to LAC under SP-1914 for the reasons specified. Inclosure 5 indicates those items of GFAE made available to the contractor by the [redacted] for production installation as well as quantities required for initial spare support. 25X1A

It is recognized that this information does not represent a complete listing. Additional GFP was made available to the contractor from [redacted] from AFSD quantities. Since the [redacted] and WRAMA do not have any indication what this included or amounted to, it is suggested that [redacted] be contacted if a more complete listing of GFP is found to be necessary for auditing purposes. 25X1A
